

PORTISHEAD & NORTH WESTON TOWN COUNCIL

THE LOCAL GOVERNMENT NEW LOOK PENSION SCHEME 2007 EMPLOYERS DISCRETIONS

This policy describes how Portishead & North Weston Town Council exercises its discretionary powers under the Local Government New Look Pension Scheme (LGPS) 2007.

INTRODUCTION

Employees of Portishead and North Weston Town Council are entitled to join the Local Government Pension Scheme. The LGPS is an occupational pension scheme which is administered in our area by Bath & North East Somerset Council and is called the Avon Pension Fund.

The general framework of the LGPS is determined nationally by the Department of Communities and Local Government and is set out in legislation. This covers all major aspects of the scheme such as:

- Who can join;
- Contribution rates;
- Type and level of Benefits;
- When benefits are payable or can be claimed;
- What happens to a leaver's accrued benefits.

Within the legislation, there is provision in specific areas for the employer to exercise discretion over the entitlements of its current or past employees. The employer must publish a written statement of how it intends to exercise such powers.

This document summarises how Portishead & North Weston Town Council has decided to exercise its discretionary powers.

DISCRETIONARY POWERS

Power of employing authority to increase total membership of active members (Benefit Regulation 12)

Increasing (ie augmenting) the total membership contributions of a current member of the scheme is a power which employers may use, for example, to attract scarce people with key skills from outside local government. Portishead & North Weston Town Council has no intention of making a general use of this power but may wish to consider its use in exceptional cases in the future. The increase in membership under this regulation (including additional membership in respect of different employments) must not exceed 10 years.

Power of employing authority to award additional pension (Benefit Regulation 13)

The Council may resolve to award a member additional pension of not more than £5,000 a year. With the exception of early retirements, which are explained below, the Council has no intention of making use of this power in the foreseeable future.

Members of the Avon Pension Fund may choose to enhance their pension benefits by purchasing additional pension up to a maximum of £5,000 (in multiples of £250) by paying Additional Regular Contributions (ARCs).

Flexible Retirement (Benefit Regulation 18)

An employee who is aged 55 or over (50 until 31st March 2010, age 55 from 1st April 2010 and new joiners from 1st April 2008) can request the Council to allow them to access pension benefits whilst still remaining employed by the Council.

This would only be in situations where the employee wishes to reduce hours and/or move to a lower graded post, and must be agreed by the Council.

Flexible Retirement is aiming to assist a more gradual move into retirement over a period of years by allowing an employee to work fewer hours and/or in a less demanding job, whilst at the same time drawing their pension. This may be of benefit to the employee and also the Council in terms of retaining the services of the employee.

The key factors in this scheme are:

- The acceptability to the employee of the level of pension he/she would receive.
- The willingness of the Council to agree to the specific flexible retirement requested.

The Council's policy on Flexible Retirement is that an application will only be approved where:

- There are no pension costs to the Council arising from the employee's flexible retirement. (Pension estimates for Flexible Retirement from Avon Pension Fund will reflect this policy).
- The Flexible Retirement will provide benefits to the Council, for example financial savings or the facilitation of organisation or staffing changes and will not result in any detriment to the level of service.
- If the request is to work reduced hours, the Council's assessment must be that there would be no operational problems caused, or recruitment difficulty anticipated, in making up the reduced hours.
- If the request is for a move to a lower graded post, this would be subject to an appropriate vacancy arising and the operation of the Council's normal recruitment procedures in filling the post.

Early Retirement Discretions

Normal retirement age under the LGPS is 65 years and benefits are paid automatically from this age. Individuals who choose to retire at any time from age 60 years may elect to receive

their accrued pension benefits early. However, unless the member has protected benefits under the “rule of 85” their pension benefits will be actuarially reduced.

Persons under the age of 60 will only gain access to their pension benefits early under the following circumstances:

- Permanent ill-health (any age)
- Voluntary retirement with the approval of the Council (age 50 or over, age 55 from 1st April 2010 and new joiners from 1st April 2008);
- Compassionate Grounds (age 50 or over, age 55 from 1st April 2010 and new joiners from 1st April 2008);
- Redundancy (age 50 or over, age 55 from 1st April 2010 and new joiners from 1st April 2008);
- Retirement in the interests of efficiency (age 50 or over, age 55 from 1st April 2010 and new joiners from 1st April 2008).

A brief description of each of these routes is set out below, highlighting the discretions which the Council may exercise. These are complex situations and it is essential that any individual who may possibly be involved in one of them seeks early and detailed advice from the Avon Pension Fund.

Permanent ill-health

The Council will make arrangements for professional and independent occupational health advice from the Occupational Health Service. If the Occupational Health Doctor certifies that an employee is permanently incapable of discharging efficiently the duties of their relevant local authority employment because of ill-health or infirmity of mind or body and, if so, whether that condition is likely to prevent the employee from carrying out other gainful employment within a reasonable time of leaving local government employment or, as the case may be, before reaching normal retirement age (65 years), the employee will be entitled to the immediate payment of their accrued pension benefits, without abatement, together with additional benefits as laid down in the LGPS regulations. There are no specific age restrictions on an ill-health retirement, however members must have retired by the day before their 75th birthday.

If the ill-health retirement is as a result of an injury or disease contracted in the course of the person’s employment, they are entitled to be considered for an Injury Allowance. The Council may also take account of any contributory negligence on the part of the employee and any other benefits which may be paid including ill-health pension and State benefits.

Voluntary early retirement (Benefit Regulation 30)

An employee aged 55 or over (50 until 31st March 2010, age 55 from 1st April 2010 and new joiners from 1st April 2008) but not yet 60, who wishes to voluntarily resign, may apply to the Council for approval for the early payment of accrued pension benefits. The Council has decided that such applications will only be accepted where it can be demonstrated as being in the Council’s interests or where there are compassionate grounds for the early release of pension benefits.

If the Council agrees to permit early retirement with the immediate payment of pension benefits for reasons other than compassionate, an actuarial reduction will be applied to the person's accrued pension benefits (For employees born before 1st April 1956, if the sum of their age and pensionable service is 85 or more, pension benefits are paid without an actuarial reduction for early payment, if they retire before 1st April 2016).

If the Council agrees on compassionate grounds, the accrued pension entitlement is paid without an actuarial reduction for early payment, but with no augmentation or enhancement.

As a general rule, the Council will only agree to the early release of pension benefits on compassionate grounds if it can be demonstrated that the person is unable to continue working or resume employment due to circumstances outside of their control, for example to look after and care for a dependant spouse. Financial reasons alone will not normally be considered sufficient grounds for the early release of benefits.

Redundancy

If the Council terminates the employment of an employee by reasons of redundancy, the employee, if aged 55 (50 until 31st March 2010, age 55 from 1st April 2010 and new joiners from 1st April 2008) or over, becomes automatically entitled to the immediate payment of accrued pension benefits without any reduction for early payment.

In addition, the Council has decided not to grant any additional pension (Benefits Regulation 13).

Retirement in the interests of efficient exercise of Local Authority Function (RIEELAF)

If the Council terminates the employment of an employee by reason of RIEELAF the employee, if aged 55 or over (50 until 31st March 2010, age 55 from 1st April 2010 and new joiners from 1st April 2008), becomes automatically entitled to the immediate payment of accrued pension benefits without any reduction for early payment.

The Council has the discretionary power to increase (ie augment) an employees total membership (Benefits Regulation 12) and/or to award up to £5,000 additional pension (Benefits Regulation 13) in such cases. However, since such cases are likely to be infrequent, the Council has decided to consider the question having regard to the individual circumstances of any case which comes forward.

ADDITIONAL INFORMATION

Inward transfer of pension rights – If a scheme member wishes to transfer pension rights into the LGPS they must opt to do so within 12 months of joining the LGPS.

Ex-employees – Portishead & North Weston Town Council ex-employees who have Deferred Benefits which are preserved benefits in the Avon Pension Fund may apply to the Council for the early release of their benefits by reason of permanent ill-health or on compassionate grounds. Such applications will be dealt with on the same basis as for current employees. However, in the case of permanent ill-health the pension scheme does not provide for benefits to be enhanced as it does for current employees.

Contribution Bands – Employees are to pay contributions according to the following table based on their whole-time equivalent pensionable pay (salary plus contractual payments) as follows:

Band	Range (2008/2009)	Contribution Rate
1	£0 - £12,000	5.5%
2	More than £12,000 - £14,000	5.8%
3	More than £14,000 - £18,000	5.9%
4	More than £18,000 - £30,000	6.5%
5	More than £30,000 - £40,000	6.8%
6	More than £40,000 - £75,000	7.2%
7	More than £75,000	7.5%

These bands will be enhanced by the cost of living (Retail Price Index) each year. Employees will be reassessed at 1st April annually to determine if re-allocation to a new band is necessary.

For ease of administration and implementation and to ensure a fair and consistent transition to the new rates the following arrangements will be applied –

- Existing LGPS members will be placed into one of the above bands on the basis of their actual pensionable pay as at 1st April 2008.
- New joiners to the LGPS on or after 1st April 2008 will be placed into a band based on their known pensionable salary as at their date of joining the Scheme.
- Scheme members who have an increase in salary part way through the year that takes them into a higher band will be moved into the higher band in the April following the increase.
- Scheme members who have a decrease in salary that places them in a lower band will be moved to the lower band immediately. This will not apply to someone who has a reduction in salary through working fewer hours as their whole-time equivalent pay will not have changed. The number of occasions when this is likely to happen is expected to be extremely low.
- The contribution band for part-time employees will be assessed with reference to their whole-time equivalent pay based on a 37 hour week.
